Letter of Recommendation: **Shubhra Chaturvedi**

I have had the pleasure of interacting with Shubhra during a drawing workshop I held last year. She is one of the most enthusiastic students ever that I have guided. She has a good eye and an ability to capture an expression. I have subsequently advised her on paintings and discussed other projects she has been engaged in. As an artist I find her works to be lyrical.

I am impressed with her photography and that she commits herself to both the camera and the brush with equal enthusiasm.

Shubhra is an extremely sociable person and one can have wonderful conversations with her on a whole range of topics. I have no hesitation in recommending her to you for a favorable consideration to your residency program. I am quite sure that she will derive great benefit from it and in turn make her contribution.

Mark Warner

Architect
